

KEY FIGURES

1,800 staff
160 physicians
150 researchers
1,000 students

306 beds - **94** day-hospital places
 More than **34,000** patients treated every year
 More than **105,000** hospital stays every year
 More than **58,000** radiotherapy sessions every year
 Mean length of hospital stays: **6.3 days**
79% outpatients in the hospitalization units
 Healthcare units given an **A** rating by the HAS

More than **180** clinical trials include patients every year
15% of patients (active files) included in trials
 More than **560** scientific papers every year
15 patents every year

15,000 donors
 Establishment authorized to receive donations and bequests
1 foundation (Toulouse Cancer Santé)

Member of the Organisation of European Cancer Institutes (OECI).

IUCT-Oncopole is part of a public-sector cancer research and treatment group whose work is shared between three sites: IUCT-Oncopole, IUCT-Purpan and IUCT-Rangueil/Larrey.

IUCT-Oncopole is located in TOULOUSE, in the OCCITANIE Region

- ▶ Mainland France's second largest region:
 - 72,000 km²
 - 5.8 million inhabitants
- ▶ France's leading region for research: 30,000 researchers, 14 business clusters hosted or associated
- ▶ 35 "grandes écoles" and universities with 245,000 students
- ▶ Large corporations: Airbus, Safran, Thalès, Continental, Pierre Fabre

TOULOUSE UNIVERSITY CANCER INSTITUTE-ONCOPOLE

IUCT-ONCOPOLE

RESEARCH
 INNOVATION
 CARE

TOULOUSE - FRANCE

INSTITUT UNIVERSITAIRE DU CANCER DE TOULOUSE Oncopole

AT THE HEART OF A CAMPUS

The IUCT-Oncopole brings together the Institut Claudius Regaud (ICR), Toulouse University Hospital's oncology departments (CHU), and the Cancer Research Center of Toulouse (CRCT) on a single site at the heart of the Oncopole campus, a cluster of public and private cancer organizations aimed at stimulating innovation and optimizing patient care.

11 technical support centers
1 biological resource center
less than 6 months for a CRCT discovery to be transferred to a clinical trial at the IUCT-Oncopole
1st France's largest hospital pharmacy (more than 120,000 chemotherapy preparations per year)

RESEARCH AT THE CRCT

UMR 1037 INSERM / UNIVERSITÉ TOULOUSE III PAUL SABATIER ; ERL5294 CNRS

Oncoimmunology
RNA Signaling
Metabolism
Genetics
Instability

21 research teams (inc. 4 with CNRS accreditation)

430 researchers, clinicians and support staff.

1 Regional Centre for Functional Exploration and Experimental Resources (CREFRE)

8 technical services units

33 collections preserved in the Biological Resource Center

2 integrated programs:

- ▶ Resistance mechanisms and new targets: from molecular pharmacology to clinical pharmacology
- ▶ Promote the use of mathematical, physical and bioinformatical approaches in oncology (Oncodevice)

CLINICAL RESEARCH

Pioneering ISO 9001 certifications:

- ▶ Clinical trials unit (BEC) ICR
- ▶ Research and innovation department (DRI) CHU
- ▶ Hospital pharmacy and clinical trials (UPCO/UEC) IUCT-O

More than **1,900** patients are included in a trial every year (1,520 from IUCT-O)

75% of clinical research is academic research

More than **180** clinical trials recruit patients every year

52% of inclusions are within early phase trials (19% of which are phase I trials)

47% of patients are included in trials promoted by IUCT-O

Methodology support center

Two teams provide project support: data management & bio-statistics (research partnership with Toulouse School of Economics).

Industrial partnerships

- ▶ Several framework agreements with major companies in order to join international clinical research and oncoimmunology networks: ImCore, GECl and OTX.
- ▶ Licenses have also been issued giving companies limited access to databases.

INCa-accredited center for early phase clinical trials (CLIP²)

Member of the international research network

PATIENT CARE

15 organ coordination committees

To ensure every patient receives the most appropriate integrated care from diagnosis to after cancer, medical strategy decisions at the IUCT-Oncopole are taken by multidisciplinary committees (12 at the IUCT-O and 3 associate committees):

IUCT-O OCCs:

- ▶ Breast Cancer
- ▶ Gynecology
- ▶ Head and Neck Cancers
- ▶ Sarcomas
- ▶ Neuro-oncology
- ▶ Skin Cancers

Urological Cancers

- ▶ Oncogenetics
- ▶ Oncogeriatrics
- ▶ Supportive Care
- ▶ Hematology
- ▶ Endocrine & Thyroid Cancers

Associate OCCs:

- ▶ Thoracic Cancers
- ▶ Digestive Cancers
- ▶ Pediatric Cancers

10,100 new patients treated every year

More than **2,600** patients receiving oral therapies

79% of patients receive their treatment as outpatients

7 operating rooms, including 1 devoted to R&D

7 accelerators and more than 57,000 radiotherapy sessions every year

470,000 slides read by the pathology lab every year

A ratings for most indicators in the latest SCOPE Santé survey

"Sport & Cancer" Center

- ▶ Since 2017, patients have been offered free, collective physical activity sessions, in conjunction with the CAMI.
- ▶ Stade Toulousain Rugby Club has supported this initiative since September 2018.

TRAINING

Lifelong training

In addition to its university functions, the IUCT-O contributes to continuing education and professional training through:

- ▶ continuous professional development courses,
- ▶ seminar cycles,
- ▶ other events held in the 300-seat amphitheater.

Simulations to train future medical personnel

- ▶ Use of mannequins to teach certain medical and nursing procedures.
- ▶ Simulations with theater actors in order to learn how to communicate with patients.

110 IUCT-O staff contribute to knowledge diffusion

1,100 students, including 200 interns and 70 doctoral students

37 student nationalities

14 associated Masters degrees, including 1 Master's in cancerology taught at the CRCT

24 professional training courses, plus 9 university diplomas

95 events organized by the IUCT-O every year

MyLittleTools platform

This platform provides e-learning modules and courses, including SPOCs and Serious Games, produced internally or in conjunction with other institutions (Université Toulouse III- Paul Sabatier, Institut Paoli- Calmettes, IRFSS Croix Rouge, etc.). It also posts training courses and scientific events held at the IUCT-Oncopole.
